## U.S. Geography Review Map

### DIRECTIONS

- Label all the following items on your blank map. You have four resources to use: the pull-down wall map, your student planner, the *American Nation* book, and the U.S. History atlases.
- Geographic place-names are proper nouns, so be sure to write them as they appear, with their first letter capitalized.
- Write small enough so that your map isn't messy and cluttered!
- After we've completed the maps, there will be a closed-map test on the items on your map list. Anyone who doesn't pass the test in class will be required to come in during lunch until they pass it. There is nothing fancy about studying for the test. All you have to do is . . . **MEMORIZE EVERYTHING!!**

### LIST OF MAP ITEMS

1. Label all the states of the United States in **RED**. Where space is limited, write off to the side and draw an arrow to the state. You may **not** use postal codes, or other abbreviations. As you can see, the states are not listed here.
2. Label the following physical features in **BROWN**:

The Great Plains	Black Hills	Ohio River Valley
Rocky Mountains	Appalachian Mountains	Sierra Nevada Mountains
3. Label the following rivers and bodies of water in **BLUE**:

Great Salt Lake	Mississippi R.	Missouri R.	Arkansas R.	Platte R.
The Great Lakes	Colorado R.	Rio Grande R.	Ohio R.	
4. Make a dot for, and label the following important cities in **BLACK**:

New York	Chicago	Dallas	Houston	Pittsburgh
San Diego	Denver	Santa Fe	Detroit	San Francisco
Philadelphia	New Orleans	Boston	Richmond	Cheyenne
Salt Lake City	Kansas City	Los Angeles	St. Louis	Washington D.C.
5. Create a color-specific **key** somewhere on your map.
